

ABDULLAH FAISAL

Computer Science Student | AI/ML Lead | Team Collaboration

abdullahf0100@gmail.com • [GitHub](#) • [LinkedIn](#) • Lahore, Punjab, Pakistan • [Portfolio](#)

Summary

Computer Science student with a 3.22/4.00 GPA and a strong foundation in software development, artificial intelligence, and machine learning. Experienced in building academic and personal projects using Python, C++, JavaScript, and modern AI frameworks. Passionate about applying machine learning to real world problems, continuously learning new technologies, and developing reliable, user focused solutions

Education

Lahore Garrison University
Bachelor of Science

Lahore, Punjab, Pakistan
09/2024 - Present

Experience

DeveloperHub Corporation

Remote (DeveloperHub Corporation, Islamabad, Pakistan)

AI/ML Engineer Intern

06/2026 - 07/2026

- Developed, fine-tuned, and evaluated ML and transformer-based models using Python, PyTorch, Scikit-Learn, and Hugging Face.
- Built data preprocessing pipelines and evaluated LLM applications for NLP, predictive modeling, and optimized deployment.

IEEE LGU Student Branch

Lahore, Punjab, Pakistan

AI/ML Domain Lead

2026 - Present

- Co-designed and leading a comprehensive 12-week AI/ML curriculum taking enrolled domain students from Python fundamentals to advanced machine learning
- Conducting structured weekly milestone check-ins, mentoring students through hands-on coding tasks, and guiding practical project implementations

LGU ACM Chapter

Lahore, Punjab, Pakistan

Technical Team Member

2025 - Present

- Collaborated with team members on technical initiatives, workshops, and student-focused programming activities
- Assisted in organizing and supporting technology-related events to encourage practical learning among students
- Contributed to the technical community through knowledge sharing and teamwork

Skills

Python • C++ • JavaScript • Data Structures & Algorithms • Object-Oriented Programming • Database Systems • Problem Solving • Pandas • Numpy • Generative AI Fundamentals • Natural Language Processing • Data Preprocessing • React.js • CSS • Raylib • Godot Engine • Git • GitHub • Jupyter Notebook • Communication • Teamwork • Adaptability • Leadership • Critical Thinking

Projects

Context-Aware RAG Chatbot

Developed a context-aware chatbot using Retrieval Augmented Generation (RAG), LangChain, ChromaDB, and Hugging Face to provide accurate responses from a custom knowledge base.

- Enabled semantic document retrieval with conversational memory.
- Deployed an interactive chatbot using Streamlit.

LLM Based Support Ticket Auto Tagging

Developed an LLM-powered system using Qwen2.5 to automatically classify customer support tickets through prompt engineering.

- Improved prediction consistency using few-shot prompting.
- Generated ranked Top-3 support categories automatically.

Certifications & Activities

Certifications: IBM: Python for Data Science (2025) • Oracle University: Oracle Cloud AI Foundations (2025)

Extracurricular & Mentorship: Student Mentor, ACM LinkedIn Corner • FortyGuard Hackathon (2026) • UCP TAAKRA Speed Programming (2026) • IntraTech 2.0 Hackathon • Hacktoberfest Contributor (2025)
