Software Engineering / Game Development / AI/ML internship

Computer Science student at Lahore Garrison University (CGPA 3.14) with hands-on experience in game development, web development, and AI/ML tools. Built 10+ projects using C++, Python, JavaScript, React.js, Raylib, and Godot, and actively contribute to open-source and hackathons. Seeking a Software Engineering / Game Development / AI/ML internship where I can apply strong CS fundamentals (DSA, OOP) and ship high-quality features in a team environment.

EDUCATION

BS Computer Science

Lahore Garrison University (LGU) • Lahore • GPA: 3.14/4.00 • 01/2023 - 01/2027

Expected Graduation: 2027|Current Semester: 4th

AWARDS & SCHOLARSHIPS

UCP TAAKRA 2026 • 02/2026

IntraTech 2.0 Top 10 Finalist • 12/2025

PROJECTS

Iris Petal Data Analysis

- Performed exploratory data analysis on the Iris dataset using Python to identify patterns across sepal/petal measurements.
- Created visualizations and summary statistics to communicate findings clearly.

Catch or Kaboom

- Developed a 2D game in C++ with Raylib, implementing custom mechanics, collision detection, scoring, and a stable game loop.
- Built modular systems for game states and reusable entities to keep the codebase maintainable.

Prince Walkthrough

Built a 2D adventure game in Godot (GDScript) with smooth character movement, scene transitions, and custom level design.

E-Commerce Website

Built a responsive e-commerce frontend with React.js and TailwindCSS using a component-based architecture.

VOLUNTEERING & LEADERSHIP

ACM • 09/2025 - Present

Technical Team Member

Support technical events and workshops; collaborate on community projects and peer learning.

SKILLS

TECHNICAL SKILLS: Business Analytics (Excel), C++, CSS, Data Structures & Algorithms, Express.js, GDScript, Generative AI tools, Git, GitHub, Godot Engine (GDScript), HTML, JavaScript, NumPy, Object-Oriented Programming, Python, Raylib (C++), React.js, SQL, TailwindCSS, VSCode
